

Revitalising Network Workshop: Leadership

Leadership in Health and Safety and One Company's Journey: JCB Ltd, Rocester Staffordshire - Wednesday 16th March 2010

Leadership is essential to the delivery of good health and safety performance. Leadership features as a key component of the new HSE strategy "Be Part of the Solution". It applies to all directors, governors, trustees officers and their equivalents in organisations of all sizes and sectors, and this includes manufacturing industries with small or large companies. Failure to include health and safety as a key business risk in board decisions can have catastrophic results. Many high-profile safety cases over the years have been rooted in failures of leadership

In support of the new HSE strategy, the Manufacturing Industries Revitalising Network is bringing you a workshop on March 16th. This will feature primarily the path that one major manufacturing company followed towards the goal of effective leadership in health and safety, and JCB Ltd at Rocester, Staffordshire have volunteered to share their story with the network. You will hear from people in different positions in the company, directors, safety professionals and employee representatives about how this has been achieved. Additionally, there will be an introduction to the current HSE activity regarding leadership.

Following the workshop, which will run from approximately 10:15 a.m. to 12:45 p.m., JCB have kindly offered a full tour of their facilities for those who are interested, and this would be a unique opportunity to see one of the country's leading manufacturing companies operations at first hand. If you would like to participate please indicate when reserving your place.

There is no charge for attending this workshop. Refreshments and a buffet lunch will be provided.

To reserve a place, please contact me via email. Spaces are limited, so book early to avoid disappointment. If you are unable to attend and would like to nominate a colleague to attend on your behalf please send their full contact details.

Further information will follow w/c 1st March.
